Subject: FW: [EXT] Has NMED permitted any EO Sterilization Facilities subject to 63 Subpart O
Attachments: Complete appl-A-0733-Santa Teresa.pdf; FinalPermit(0733M15R1).pdf; SOB(0733M15R1).docx

Kyndall,

Attached is the info you requested for EO Sterilization Facilities subject to 63 Subpart O permitted by NM.

Thanks, Erica

Subject: RE: [EXT] Has NMED permitted any EO Sterilization Facilities subject to 63 Subpart O

Hi Erica,

Based on my search of our TEMPO database, New Mexico has one facility regulated under 40 CFR 63 Subpart O (EO sterilization not associated with hospitals). That facility is Sterigenics in Santa Teresa, NM (AI ID 127). Sterigenics has an NSR permit (0733M15R1); there's no Title V permit.

On the conference call, you requested applications, permits, etc. for facilities subject to this regulation. I've attached their most recent NSR application, their current NSR permit, and the Statement of Basis for that permit. The Statement of Basis shows them as subject to Subpart O and contains the permitting history of the facility.

Please let me know if you need any more information on this facility.

Regards,

Kirby

Hi Kirby,

Just a reminder from meeting question

State permit coordinators have been asked to check state contacts to see if they have permit sources for Ethylene Oxide Sterilization facilities. The facilities would be subject to 63 Subpart O and the permitting actions can TV, NSR, and/or registrations. Regional offices and HQ's are working on collecting and combining information on this sources.

Thank you, Erica
